AUTHOR INDEX FOR VOLUME 152 598

NOTICE

The Subject Index for Volume 152 will appear in the December 1992 issue as part of a cumulative index for the year 1992.

An International Journal Designed for the Diverse Community of Users and Developers of Novel X-Ray Imaging and Analysis Techniques

Journal of X-Ray Science and Technology

Editor-in-Chief
Larry Knight
Brigham Young University, Provo, Utah

The **Journal of X-Ray Science and Technology** is designed to provide scientists and engineers with a single literature source covering new developments in the field of x-ray imaging and analysis techniques. Reports of original research and timely reviews of the best technical and esthetic quality will be published.

Research Areas Include

- Applications: analytical, nondestructive testing, microelectronics, biological/medical imaging, x-ray astronomy, materials and surface science
- Interaction of x rays with matter: x-ray phenomena and optical constants
- Sources: synchrotron-generated x rays, x-ray lasers, laser-produced plasmas, novel solid sources
- Optical elements: grazing incidence optics, multilayer mirrors, zone plates, gratings
- Optical instruments: interferometers, spectrometers, microscopes, telescopes, microprobes
- Detectors: CCD arrays, position-sensitive detectors
- Signal processing: coded imaging, tomography
- Related topics and future trends

Volume 3 (1991/1992), 4 issues ISSN 0895-3996
In the U.S.A. and Canada: $104.00 All other countries: $116.00

Manuscripts may be submitted in quadruplicate to:
JOURNAL OF X-RAY SCIENCE AND TECHNOLOGY
Editorial Office
1250 Sixth Avenue, San Diego, CA 92101

Sample copies and privileged personal rates are available upon request. For more information, please write or call:

ACADEMIC PRESS, INC., Journal Promotion Department
1250 Sixth Avenue, San Diego, CA 92101, U.S.A.
(619) 699-6742

All prices are in U.S. dollars and are subject to change without notice. Canadian customers: Please add 7% Goods and Services Tax to your order.

Editorial Advisory Board
Barbara Iglewski, Martin Alexander, David Hopwood, and Allen I. Laskin

> *"Excellent, concise coverage of the topic."*
> —PHILIP C. HANAWALT
> Stanford University, California
>
> *"Provides an excellent up-to-date accounting of AIDS research. Moreover, for a topic with such far-ranging areas to be covered, it provides a thorough picture of our present understanding of HIV pathogenesis and AIDS."*
> —CRAIG ROSEN
> Roche Institute, Nutley, New Jersey

Key Features and Benefits

- Four volumes, including subject index
- More than 200 articles
- Approximately 700 figures
- More than 300 tables
- Large 8-1/2" x 11" double column format

Four-Volume Set
October 1992, c. 2,100 pp., $675.00 (tentative)
ISBN: 0-12-226890-3
Prepublication Price: $595.00*
*Expires on final day of month of publication.

Encyclopedia of Physical Science and Technology

SECOND EDITION

edited by
Robert A. Meyers

Responding to an abundance of new research and development in the physical sciences, Academic Press has completely updated and revised its **Encyclopedia of Physical Science and Technology**, an eighteen-volume work that maintains the high level of excellence of the original edition.

Comparison of First and Second Editions

	First Ed.	Second Ed.
Number of volumes	15	18
Number of articles	550	705
Number of pages	11,651	14,080
Bibliographic entries	5,000	6,500
Number of Figures	6,600	8,500
Number of Tables	1,400	1,800
Illustrations	5,500	8,200
Glossary entries	6,800	8,700
Index entries	55,000	70,000

Eighteen-Volume Set
August 1992, c. 14,080 pp., $2,500.00 (tentative)
ISBN: 0-12-226930-6
Prepublication Price: $2,100.00*
*Expires on final day of month of publication.

Academic Press Dictionary of Science and Technology

Set a new standard of excellence by adding the **Academic Press Dictionary of Science and Technology** to your reference collection. It will become your reference of choice.

Summer 1992, 2,240 pp., $115.00
ISBN: 0-12-200400-0
Prepublication price: $99.50*
*Expires on final day of month of publication.

Encyclopedia of Immunology

edited by
Ivan M. Roitt and Peter J. Delves

This comprehensive, three-volume work is the definitive, comprehensive source of all immunological knowledge.

Key Features and Benefits

- Three volumes, each containing a complete subject index
- Approximately 1,800 pages in a large 276mm x 219mm, double-column format for easy access
- More than 650 contributors
- Just under 600 entries covering all aspects of immunology and related subjects
- Cross-referencing links overlapping and related entries
- Further reading lists provided at the end of every entry allow easy access to the primary literature
- More than 250 figures complement the text

Three-Volume Set
July 1992, c. 1,800 pp., $450.00
ISBN: 0-12-226760-5
Prepublication Price: $395.00*
*Expires on final day of month of publication.
